

If Your Prison Isn't Meeting the Mandated Requirements of the ADA for Your Deaf Inmates — Then Get Ready for One of These...

Recent lawsuit settlements have totaled \$250,000 to \$750,000.

- ▶ Installing just one SecureVRS® system will cost far less than your attorney's fees to delay the inevitable.
- ▶ With Secured Video Relay, an ongoing protracted legal battle is unnecessary and can be avoided.
- ▶ Tidal Wave Telecom's secured video relay is proven and has been adopted by DOCs nationwide.

We're THE ONLY PROVIDER of Secured Video Relay and our solutions are available turnkey or cloud-based.

**TTY IS
LEGALLY DEAD!**

DOCs have never won a single court case denying a deaf inmate's right to video relay service.

Compliance requirements are now mandated by the ADA, NRA and PREA.

When communication services are available to other inmates, but your correctional facility fails to provide the accommodations necessary to make the same services available to deaf inmates, your prison becomes liable for failing to provide equal access.

Don't have Secured Video Relay?

You're risking the safety of your entire staff!

Tidal Wave Telecom is **THE ONLY PROVIDER** of Secured Video Relay.

We will eliminate security risks in your prison and make it easier for your staff to do their job.

You have two video relay options — residential or SECURED.

RESIDENTIAL VIDEO RELAY

- ⊗ Cannot be recorded.
- ⊗ WILL OPEN DANGEROUS HOLES IN YOUR COMMUNICATION SECURITY.
- ⊗ Provides unrestricted access.
- ⊗ Is the equivalent to passing out unrestricted smartphones to prisoners.
- ⊗ Would you hand an unrestricted smartphone to your prisoners just to meet the ADA's compliance requirements? Of course not!

SECURED VIDEO RELAY

- ✓ Records video calls.
- ✓ CLOSSES SECURITY HOLES.
- ✓ Provides managed access.
- ✓ Allows you to meet the REQUIREMENTS OF THE ADA, NRA, AND PREA.
- ✓ Is presently used by the U.S. FEDERAL BUREAU OF PRISONS, STATE DOCs, and COUNTY JAILS nationwide.
